***Please Note:**

Prices are subject to change at any time. Pricing may vary depending on location. Service only available in certain areas. Delivery time may vary depending on service. Additional phones may be subject to bandwidth restrictions, and the number of phones allowed at a given Internet speed is determined by Stimulus Technologies. All equipment remains under the ownership of Stimulus Technologies. Any abuse, misuse, mishandling, or destruction of any of the equipment provided will be paid by the customer. Any changes to the automated attendant, additional phones, moving of phones or any other problem that requires a on-site service call is billable to the customer. **Customer is responsible for any inside wiring, including Cat-5 cabling, ethernet, power or wireless equipment beyond the standard installation set forth by Stimulus Technologies, which includes: one battery backup unit for router, one 5port ethernet switch for phone equipment and patch cables at a maximum of 10' from the phone to the wall outlet.**
